irack in order a verdict of not guilty was rendered.

The November No. of the Virginia University Magazine has just been issued. A list of sixteen fraisentities for the present session is published together with the names of the "goats." Professor R. H. Dabney, the committee appointed for the purpose, awarded the prize of \$10 offered by the Board of Editors for the best article in this No. to Mr. Frank Andrews, of Mississippi.

The corpe of assistants in the Alabama Insane Hospital (Tuccaloosa) is composed solely of graduates from the medical school of the University of Virginia. First Assistant, Eugene Bondurant, class of 1889; Third Assistant, E. A. Wright, class of 1889; Third Assistant, William B. Hull, class of 1890—all of whom made taken his M. D. in one session. This is a just acknowledgment of the merits of a good medical school.

A SERIES OF LECTURES.

A BERIES OF LECTURES.

S. Holfe Müller, Ph. D., Heldieburg, who has recently made the University his home, has been requested by the University authorities and will deliver a series of lectures at that institution this winter—the middle of December—his subject being "Socialism and Communism: Their Nature, Dangers, and Remedies Considered." The students are invited to attend these lectures, the course being free.

Up to date the number of students at the University numbers 488, exceeding last year's matriculation up to the corresponding date by thirty-seven, and already exceeding that of 1890-70 by nine. There is hardly any doubt but that the list will number over 500 for 1891-92.

[Special telegram to the Dispatch.]

WITHEVILLE. Va., November 19.—Mr.

James Cassell returned from Newbern today with a horse stolen from him nearly a year
ago. The horse, which had been sold to the
party in Newbern in whose possession Mr. Cassell found him, was traced to the man Asper, who
has been implicated before in the recent horsestealing which has been going on in the Southwest. During the investigation Asper's house
was searched, and a book found in which Asper
has registered in a very business-like way a description of the various horses he had stolen, the
dates on which they were taken, and the name
of the various parties from whom they were
stolen. BOTH IN GOOD TRIM.

That's the way it should be. Your wife will look woil if you don't-she'll take good care of that. It isn't in the nature of things that you should look quite as attractive as she does, but it is in the nature of things that your clothes should look as though they were made for you and hobody size. Our winter suits will fill the bill exactly. We call it phenomenally cheap. It will cost you only a few dollars, and the satisfaction you'll get from it will be worth just about double the money to you. An overyout is needed to complete the outfit. Here, again, we have exactly what you need. You each defy both cold and criticism in our overcoats. Meetings Friday Night.

Asper is said to have remarked when the book was shown to him that there was no use in his denying it any longer, and that he had been making a business of horse-stealing for some time. He is also said to have implicated George Carter, of Pulask City, who was tried in New-bern before a justice a few days ago for implica-tion in horse-stealing and acquitted.

PREUMONIA.

Have you noticed the unusual number of cold possessed by your acquaintances this year There seems to be no particular reason why the fall of this year should be more trying that usual, but nevertheless it is a fact. Those when we comething of these matters say that the extraordinary prevalence of could is the fore runner of another visitation of the grip. The their it may turn out so ar not, a thing every on should do is to get rid of a cold as not a possible on account of the danger to which a person with a "little cold" is exposed, Phetamoria probody wishes to face, and it is no stangeration to state that 80 per coul. of deaths from the cuse could have been averted if the colds out of which they grow had been cured.

By far the best method of ridding oneself of a cold is to take a little pure stimulant in wate and keep warm after having done so. The great early control measures should be taken (Correspondence of the Richmond Dispatch.)
